### Resolution of Respect.

Our brother, Prof. Jacob Warr Rost, L.L.D., died June 8th, 1890. The life of Bro. Rost was so intimately connected with the life of the Hopkinsville Baptist church, and the result of the last years of his life so directly helpful to the church's upbuilding, that we deem it our privilege and duty to give expression to the high esteem in which we held him; therefore be it

Resolved, By the Hopkinsville Baptist church, that the following tribute to his character be entered upon the minutes of the church, and be furnished to the papers for publication. It may well be said of Bro. Rost that he has finished his course. No life is perfect, and no record of usefulness is complete, but among those who approach nearest to this ideal who write his name. Deprived in early life of those surroundings which lift men for easy access to prominence, and having to cut out his own path way to the positions which he occupied, he has acquired some little peculiarities—peculiarities of strength, peculiarities as harmless and innocent as the fancies of a little child, which, however, to some extent, blinded the unseeing and unthinking to the greatness of his character and to the variety and excellence of his gifts.

His intuition, his insight into things, was unusually developed, and perhaps was his most striking quality. No man came more quickly and more correctly to an opinion of men or of measures. This was evidenced by the fact that in church and in social and convention his opinion was sought by brethren upon every measure for adoption and upon every man for promotion.

Yet how can we say that any quality was more largely developed in him than his love of peace and his ability to maintain and restore peace among those disposed to faction. "Blessed are the peacemakers; for they shall be called the sons of God." Then was he a son of God beyond all question. In the more troubled times of the past, when denominational lines were warring and churches were being torn asunder, he felt it his mission to allay the fever of excitement and to heal the wounds of conflict. Well did he fulfill that mission. Who has not heard him say: "Let us use divide on double issues, and let us settle those who were good brethren on both sides." No work is more to the heart of God; no work was more to the heart of our deceased brother. In his love of peace he was ready to take a position upon issues, and when responsibilities came he was ready to meet them. He never shirked an unpleasant duty. In emergencies his brethren always put him at the front. And yet how sensitive, how delicately sensitive he was! The approbation of his friends and brethren was sweet to him, and the slightest manifestation of their lack of sympathy or approval was a pain in his heart, but even this did not make him hesitate or halt in his plan of action. He had largely a woman's nature. It was the impulse of his mind to commend and uphold. He was the joy of his pastor's heart.

He was energetic to restlessness. He grew on activity and declined when forced into inaction. God made him a hammer. There was no element of the evil in him, save to bear in pain some unkind hand strike. He wrought, he suffered, he rejoiced, he loved with every fibre of his being. Who does not wonder yet when he thinks of how he suffered when so recently it was sweet little flower of his life was plucked? Who does not rejoice when memory recalls his exaltation over the honors heaped upon the son of his affection?

We shall miss his hearty greetings, his unlimited hospitality, his tender sympathy, his wise counsel. The many whom he has helped to education and usefulness now mourn his loss. The many of those who had gone before him have greeted him upon the other shore. Surely was his untiring and selfless life to enjoy beyond measure such a welcome, such a reunion.

### Reunion.

As a public man lack of scholarship did not keep him back, but his wide experience, his ready wisdom, his quick perception would him a useful and honorable place in the front ranks of his brethren. He was a speaker of rare extemporaneous powers. Overflowing with genial humor, quick at repartee, wielding that peculiar power—the logic of instinct which always hits the mark—he was as useful as he was interesting and self-sacrificing. The spontaneity of a warm heart and brain drove him into unselfish devotion to his brother and the cause. At the recent General Association "though dead he was yet alive," for even there his influence was as manifest as ever. It was in the days of his life. In his profession his church was as wide as his affection for the young, and not even the advice of loved ones, nor the deepening of age, nor the loneliness of declining health, nor the graying grave could dislodge him from his life-work and leave the impress on his life. In his profession his church was as wide as his affection for the young, and not even the advice of loved ones, nor the deepening of age, nor the loneliness of declining health, nor the graying grave could dislodge him from his life-work and leave the impress on his life. We extend to his bereaved ones our tenderest affections, and offer for their sustaining our prayers to Him who doeth all things well.

### Drunkness—Liquor Habit—in all the World there is but One Cure, Dr. Haines' Golden Specific.

It can be taken in a cup of tea or coffee without the knowledge of the person taking it, effecting a speedy and permanent cure, whether the patient is a moderate drinker or an alcoholic wreck. Thousands of drunkards have been cured who have taken the Golden Specific in their coffee without their knowledge, and to-day believe they quit drinking of their own free will. No harmful effect results from its administration. Cures guaranteed. Send for circular and full particulars. Address in confidence, GOLDEN SPECIFIC CO., 185 Race Street, Cincinnati, Ohio.

### An Error Somewhere.

Eastern Dame—You certainly must admit, my dear, that the women of the west are not as handsome as those of the east.

Western Damsel—In what respect? Eastern Dame—Well, you have no such complexion as we have. Western Damsel—Oh, I am sure you must be mistaken. We use exactly the same things—America.

### CAN'T SLEEP NIGHTS.

Is the complaint of thousands suffering from Asthma, Consumption, Coughs, etc. Dr. Acker's English Remedy? It is the best preparation known for all Lung Troubles. Sold on a positive guarantee at 25c. and 50c.

H. B. GARNER, Druggist.

When a man is not able to pasture his calves the next best thing is to graze his shins. Plunder.

### A CHILD KILLER.

Another child killed by the use of opiate given in the form of Soothing Syrup. Why mothers give their children such deadly poison is surprising when they can relieve the child of its peculiar troubles by using Dr. Acker's Baby Soother. It contains no opium or morphine. Sold by H. B. GARNER, Druggist.

"I am wearing handkerchiefs now, because I did not get enough handkerchiefs when I was a boy," said the culprit. Plunder.

### A DUTY TO YOURSELF.

It is surprising that people will use a common, ordinary pill when they can secure a valuable English one for the same money. Dr. Acker's English pills are a positive cure for sick headache and all liver troubles. They are small, sweet, easily taken, and do not gripe. H. B. GARNER, Druggist.

### Nature's Freak.

Rock Luck, July 10.—This quiet little Kentucky town has been in a great state of excitement for the last three weeks, and the female portion of the population is in high feather, for they have a phenomenal child birth to discuss, and can tell more reasons for it than the most expert man of medicine science can.

On May 22 Mrs. J. S. Morton gave birth to what was at first supposed to be a single child, but it was found to be a pair of twins. The mother was as well as any man in the town. This was two years ago, and which I have had no return of since or any pain in the legs. From my experience I conscientiously believe that Swift's Specific (S. S. S.) is as good as a blood purifier, and I am sure it is a good remedy for suffering from any disease of the blood.

Chas. E. Hamilton, Russellville, Ind. Treatise on Blood and Skin Diseases mailed free. Swift Specific Co., Atlanta, Ga.

### A Remarkable Showing.

It is estimated that Smith's Tonic Syrup, made by Dr. John Bull, of Louisville, Ky., is used in not less than eight hundred thousand families. In many localities it has entirely taken the place of quinine, having all the good qualities of quinine, and none of its evil tendencies. It is a most beneficial effect on the circulatory system and mucous membranes. It insures life into those important portions and prevents congestion. It reduces the temperature and allays all febrile symptoms. It is a true anti-periodic and will prevent or cure chills and fever with invariable certainty. In malarial districts, where colds, fever, influenza, etc., are common, it is almost a sacred duty to take Smith's Tonic Syrup occasionally, as this means the good health of the family is preserved.

"I judge that young man is all broken up by the pieces he souls in," remarked the editor, casting a doggerel into the waste basket. Plunder.

### WE CAN AND DO.

Guarantee Dr. Acker's Blood Purifier. It has been fully demonstrated to the people of this country that it is superior to all other preparations for blood diseases. It is a positive cure for syphilis, poisoning, Eruptions, and Pimples. It purifies the whole system and thoroughly builds up the constitution.

H. B. GARNER, Druggist.

When the boiler burst one of the negro firemen escaped, and speaking of his dead companion he said: "He was my steamed friend." Plunder.

### IS LIFE WORTH LIVING?

Not if you go through the world a dyspeptic. Dr. Acker's Dyspepsia Tablets are a positive cure for the worst forms of Dyspepsia. Indigestion, Flatulency, and Constipation. Guaranteed and sold by H. B. GARNER, Druggist.

### The Other Thing.

"Why, my dear, you had a party last month. How often do you wish to entertain your friends?" "This is not to entertain my friends, but to snub my enemies."—Houston Pool.

### To Nervous Debilitated Men.

If you will read us your address, we will mail you our illustrated pamphlet explaining all about Dr. Dye's Celebrated Electro-Voltaic Belt and Appliances, and their charming effects upon the nervous debilitated system, and how they will quickly restore you to vigor, and manhood. Pamphlet free. If you are thus afflicted, we will send you a Belt and Appliances on a trial. Voltaic Belt Co., Marshall, Mich.

### Both Ankles Crushed.

In a railroad smash up in 1876, I had both ankles badly crushed. Soon after Blood Poison set in, and both legs from my knees down, were covered with ulcerated sores that refused all effort to heal. I was virtually helpless for ten years, being bedridden most of the time. During all the time I was attended by the best physicians in this section of the State, and must have taken a cart load of medicine, without receiving any relief or being benefited in any way. In 1887 I was induced to try Swift's Specific (S. S. S.) I commenced to improve from the first dose, and continued to get better, until to-day I am as sound and well as any man in the town. This was two years ago, and which I have had no return of since or any pain in the legs. From my experience I conscientiously believe that Swift's Specific (S. S. S.) is as good as a blood purifier, and I am sure it is a good remedy for suffering from any disease of the blood.

### It Happened at Bar Harbor.

Dick—Did you kiss her? Chappie—No—I didn't dare to. But (proudly) she kissed me.—Munsey Weekly.

New York—I understand that during the fair in Chicago, the natives are obliged to keep off the streets. Bostonian—Why, what's that for? New Yorker—They don't want to make them the principal feature. Plunder.

Helen—My dear Lucy, did you notice that young man standing in Deacon Albert's pew last Sunday? Lucy—Yes.

Helen—Ridiculous, wasn't it? What did you think, really? Lucy—He thought him a uddly fellow.—Plunder.

### ABOUT CO-EDUCATION.

It develops the Best Traits of Character in Girls and Boys.

It is the most natural thing in the world for the little boy to lead his little sister or girl friend—knowing no difference between them save that of their dispositions or qualities. He will go first, though with beating heart, perhaps, that he may protect her from the terrible gander, which with outstretched wings and hideous open beak and threatening claws, advances toward them; he will give her the sweetest cherries, he will carry her books, he will help her to cross the brook or to climb the fence, and he will love her truly and tenderly, and all without fear or shame.

The little girl will as naturally seek his companionship, she will admire his prowess in facing danger, and gratefully accept all the tokens of his care, while she feels her superiority in the matters of cleanliness, taste and propriety, and she will love him as sweetly and tenderly as he loves her.

Studying together, playing together, growing together both mentally and physically, the boy's manly qualities become strengthened by the use to which they are put. A sense of his responsibility as a protector and helper, develops his powers. At the same time that he becomes more truly gentle and kind in all his ways, he finds that cowardice, laziness and idleness are held in great contempt by his fair associates, as courage, honesty and purity are highly esteemed, and he becomes brave and true, daring and pure; truly a gentleman.

The girl, his associate, is learning, too. She finds that cowardice, deceit, vanity and petty spite are not considered as attractions by her boy friends, and, becoming ashamed of them, seeks to cultivate the opposing virtues. She learns, too, to take broader views of things and of life; to outgrow the littleness which is the bane of women education without male companionship.

Both sexes to be marked enemies seeking to outwit each other as in a game, and become capable of loyal friendships and comradeships, understanding and appreciating each other.—Toronto Globe.

### MAGNIFICENT SYRACUSE.

What is Left of the Famous Capital of Sicily's Athenian Empire?

There are few cities in Europe, there is none in Sicily, so replete with classical interest as the once magnificent city of Syracuse, against whose walls was shattered the prowess of the brilliant and mighty Athenian empire. Sadly fallen, indeed, are the fortunes of the Syracuse of today. The restless progress of devastation caused by the action of man and of time is probably nowhere more effectively witnessed than at Syracuse. The few suburbs which were included within the ancient walls have shrunk to the modern town which covers the site of the old city. The spot where the Corinthian adventures settled, 734 B. C., and from whence rose "the greatest and fairest of all Greek cities." Of these four towns, containing superb public and private buildings, nothing comparatively speaking, but a few large stones remain. Since the time when the city was pillaged and fired by the Saracens in 878 the ruins have wasted and molded away, the crumbling dust being swept by the winds into the sea, and the site upon which so many world-important actions have taken place is now converted into corn-fields rudely tilled, whilst here and there a farmstead dots the lonely and desolate expanse. The leading features of the suburbs of Syracuse still remain the same, and any student of Thucydides can easily trace for himself all the varying movements of the great Athenian steps. The magnificent sheltered harbor is still, as on the memorable day when Nikias and his Generals in the Athenian triremes hurried themselves with desperation against the vessels of the Spartan Gylippus, who, having blockaded the entrance to the harbor with chains, held the Athenian navy as in a vice. The two lines of corn-fields rudely tilled, whilst here and there a farmstead dots the lonely and desolate expanse. ### SUPPLEMENTAL REGISTRATION.

The supplemental registration of voters will be made in the County Clerk's office on Monday July 22. This is in no sense a regular registration day for those who failed to register in June, but is for only two classes of voters, those kept away by sickness or who were necessarily out of the county all four of the regular days. Every voter registered must make affidavit and a heavy penalty attaches to false swearing in the matter. Below is the law on subject:

§ 15. Any person entitled to register, who was necessarily absent from the county of Christian during the days allowed for registration under and by the provision of this act, or who was ill during the said time, or who was unable to attend the place of registration on account of the sickness of some named member of his family, may have his name placed upon the registry for the precinct of which he lives by attending the county clerk's office, at the time hereinafter specified, and making affidavit before the clerk showing the facts required to be stated in the registry by section five of this act, and showing the absence or sickness hereinafter referred to.

§ 16. On the last Monday in July in each year and on the Saturday preceding the Congressional election, the county clerk of Christian county shall receive in a bound book, to be kept by him for that purpose, the affidavits provided for in the preceding section and shall place the names of persons making such affidavits upon the proper registration books, and shall write his name as clerk, and the date of the registry after the name of the person registered in the column headed "remarks." For this he shall receive a fee of ten cents for each name registered by him under this act, to be paid to him by the person making the affidavit.

§ 17. Any person making any false statement in an affidavit taken under this act shall be deemed guilty of false swearing, and punished by confinement in the penitentiary not less than one nor more than five years. And any county clerk or deputy thereof, who fraudulently registers the name of any person, knowing that such person is not entitled to be registered, or registers a name at a time other than that provided in this act, shall on indictment be deemed guilty of a felony and punished by confinement in the penitentiary not less than one nor more than five years.

§ 18. Any person in the county court clerk's office may challenge the right of any person to register under this act and thereupon the county clerk shall examine such voters, and any witness who may be offered under oath, and shall hear and determine the question of his right to register. And the duties herein imposed upon the county clerk may be performed by his deputy and he or his deputy may administer oaths under this act.

The Hopkinsville American thinks the editor of the Kentuckian should be arrested under the Federal law for the part he has taken in exposing the corruption in the sheriff's office under recent administrations. This ridiculous scheme attempt at intimidation will have as little effect as other methods that have been adopted to keep the Kentuckian from publishing the facts. There is no Federal law under which the freedom of the press can be interfered with or a citizen of a State arrested for discussing the public record of a state or county officer. There are, however, laws under which the grand jury can indict for publishing obscene literature and for other offenses, as the American people happened to find out when the last tribunal of that sort sat in Christian county.

Cholera infantum has lost its terrors since the introduction of Chamberlain's Colic, Cholera and Diarrhoea Remedy. When that remedy is used and treatment as directed with each bottle is followed, a cure is certain. Mr. A. W. Walter, a prominent merchant at Waltersburg, Ill., says: "I treated my baby boy of cholera infantum after several other remedies had failed. The child was so low that he seemed almost beyond the aid of human hands. A reach of my medicine, 25 and 50 cent bottles for sale by Buckner Leavelle."

### CERULEAN SPRINGS.

CERULEAN SPRINGS, July 20.—A genuine boom is now prevailing here in excess of anything ever seen within the history of the springs. Applications for rooms are coming in every day, notwithstanding the hotel is now full, but all get stowed away somehow, and intend to have a good time at all hazards.

The guests have been all astir over the coming of Co. D, Ky. State Guards, as a still livelier time is looked forward to during their stay. They put in an appearance at 5 a. m., and went directly to the camp grounds adjacent to the hotel. No tents had arrived for the boys and they were compelled to take refuge in some cabins on the ground, which afforded a very good substitute. Tents were ordered some days since from Col. Ford, but for some reason were not supplied. About twenty of the guards are here and more are expected to join the company during the week. Breakfast was served at 8 a. m., and was somewhat refreshing after the long drive from Hopkinsville, starting at 2 a. m. Their object in starting at night was to arrive here early in the morning to arrange for camp. The boys are already making preparations to spread a dinner for the ladies Wednesday, and much pleasure is expected from their presence at camp.

The coming week will be the greatest in the history of the springs, which are assuming immense pretensions and ranking among the most popular to be found anywhere.

Mr. W. T. Radford is here and has added ten years to his life. He makes a rule at the table never to let a dish pass him.

Charlie Thompson is drinking the water on scientific principles, and "is having a good time." Dr. R. R. Bourne can be seen at the spring every morning at 5 o'clock, and never drinks less than ten dippers of the health-giving waters.

Mrs. Virginia Latham, who has sojourned here for a week, leaves tomorrow for home, much to the regret of all who have made her acquaintance.

Misses Cora Petree and Mary Feland arrived Saturday and will spend several days.

Dr. C. P. Bacon and wife and daughter, Miss Mayne, and Miss Emma Boyd, of Evansville, are making their usual stay here.

Jno. W. Landrum, of Mayfield, spent Saturday and Sunday here. He returned home but will be on hand Friday night for the germ. John is very popular with all, and the inquiring minds find trouble in exactly locating the objective center of his affections.

The first german of the season will be given Friday night by the lady visitors, and will be a very brilliant affair. The event is looked forward to with pleasure, and the combination of grace, beauty, brass buttons, gallant soldiers and polished gentlemen will indeed be grand.

Cerulean is truly in her glory. Persons leaving on the early morning L. & N. train make close connection at Clarksville for Cerulean.

John P. Campbell sprained his ankle while acting the part of a gallant, and will be compelled to be only a spectator at the dances for the present.

### CASKY.

CASKY, July 19.—Miss Mary Brame is visiting Miss Allie Bradshaw this week.

Dr. John A. Gunn was here several times this week on professional business.

Prof. S. L. Frogge, the next Supt. of Schools, spent Sunday last with "The Colonel."

Walter E. Warfield, Jr., who has been quite ill for a week past, is now improving.

Col. Hugh Nelson, of Hopkinsville, is spending several days the guest of "Squire Warfield this week."

Misses Eunice and Mai Fiqua are being entertained by Miss Annie Bradshaw at "Ashbrook."

Mrs. J. H. Kelly, of Galveston, Tex., is visiting Mrs. Ora Kelly this week.

L. McGrew, representing Work Bros., Chicago, was here Saturday.

"Squire W. E. Warfield, who has been quite sick with flux, is now improving.

The "Feast in the Wilderness" is in full blast this week. Every train brings a crowd.

There was an exhibition in the ticket office Friday a toad frog with five perfectly developed legs. Four were in their proper places and the fifth grew out of the center of the back.

Mrs. W. T. Allen, who lives south of this place, had a fine gold watch and chain stolen from her by a negro tramp a few days ago. When Mrs. Allen came in from attending to some household duties she found the trunks broken open and both watch and chain missing.

### MONTGOMERY.

MONTGOMERY, Ky., July 13.—We are quite dry—no rain of consequence since the 14th of June. Corn had begun to twist lundly and in some places to buru until a small cloud visited this neighborhood and poured out its loving contents, which was highly appreciated.

Wheat thrashing is well under way and the yield is poor—not over 30 per cent. of a crop will be realized.

Tobacco looks well considering the protracted drouth. The horn worms are worse than ever before this early in the season.

The prospect for future vegetables is indeed gloomy.

There is a good deal of sickness

throughout this neighborhood.

Mrs. Geo. Ladd, of Cerulean Springs, has been quite ill for some time, and is to-day reported no better.

Mr. W. F. Ladd, of Hocking Springs, is at his father's, Mr. W. B. Ladd's.

We are sorry to hear of Mr. Fenton's illness, but glad to state he is much better now and will, we think, be able in a few days to resume business.

Rev. J. U. Spurlin preached at Buffalo last Sunday. Quite a large crowd was present.

Rev. Shelton, of Russellville, has resigned his pastorate at Rocky Ridge to accept a call at Princeton. Bro. Shelton is a fine orator.

Mr. Editor, I like to have forgotten to tell you my having watermelons today. Come down in the near future and have some with me.

The fruit crop is slim. There will be but few apples, peaches or pears in this neighborhood.

Miss Burnie Warren, of Gracey, is visiting the family of Mr. Jeff Ladd. She will be sadly missed when gone from this neighborhood. Come again, Miss Burnie, and stay longer.

Those tax payers who have had their taxes raised or miscalculated have shown commendable forbearance in not having the guilty parties arrested for the obtaining of money under false pretenses.

To place Mr. Boyd under bond at this time would enable him to cry persecution and to pose as an example of injured innocence. He should not be molested during his canvass, although the developments in the pending investigation are of the most exasperating character.

The grand jury which meets in September will inquire into the various offenses that have been committed, and before such a tribunal the loudest of bluster and bravado will count for nothing. The penalties of the law will certainly be enforced and no guilty man will go unpunished.

The Farmers' and Laborers' Union has scored a substantial triumph in Tennessee. John P. Buchanan, of Rutherford county, a farmer and President of the State Union, has been given the Democratic nomination for Governor and his election in November is a foregone conclusion.

Mr. Buchanan is a young man only 43 years of age, is a sound and consistent Democrat and won on his merits in a close and doubtful contest by the united support of the farmers. This shows what can be done by united action and shows further that the order in Tennessee has acted sensibly in looking to the Democratic party for relief instead of going into an independent movement.

A carpenter by the name of M. S. Powers, fell from the roof of a house in East Des Moines, Iowa, and sustained a painful and serious sprain of the wrist, which he cured with one bottle of Chamberlain's Pain Balm. He says it is worth \$5 a bottle. It cost him 50 cents. For sale by Buckner Leavelle.

Two colored importations named Boyd and Williams spoke at a pow-wow at the Court House Friday night. The first named was from Tennessee and was sent for to help inflame the colored voters and keep them from voting contrary to the needs of their self-constituted masters. His speech and others that followed it were of a very bitter and incendiary character, and harangues of the same sort were indulged in by two or three of the Republican candidates. Just why the party managers found it necessary to import these colored orators when they have so much local talent standing ready to be employed has not been explained.

Mr. Van Felt, Editor of the Craig, Mo., Meteor, went to a drug store at Hillsdale, Iowa, and asked the physician in attendance to give him a dose of something for cholera morbus and looseness of the bowels. He says: "I felt so much better the next morning that I concluded to call on the physician and get him to fix me up a supply of the medicine. I was surprised when he handed me a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. He said he prescribed it regularly in his practice and found it the best he could get or prepare. I can testify to its efficiency in my case at all events." For sale by Buckner Leavelle.

The question of politics in the present canvass has in a measure disappeared in the face of the greater questions of official integrity and honesty that have thrust themselves into the campaign. The masses of the people are honest and believe in honesty. They think and act for themselves. The issue now before the people will and should obliterate party lines. There is no longer any well informed man who doubts that there was crookedness in the sheriff's office for many years. The truth was rather slow in coming, but it finally came out and came with crushing force. The people were at first incredulous, but recent proof was forthcoming and the guilty parties were forced into a confession. In spite of these facts the honest, law-loving people of Christian county are asked to approve this conduct with their votes. The issue has been made, the gauge thrown down. The Republican committee has endorsed the accused candidate and the party organ has declared that the ticket will stand or fall together. The challenge is accepted by honest people and politics for the time being laid aside. The reputable voters of the Republican party will not lend their aid in such an attempt as this. The load is too heavy to ask them to help shoulder it. A great public duty rises up and their obligations as citizens call upon good men, regardless of party, to keep out of office those who have proven unworthy and unfaithful. The people will re-elect Moser West because he has proven himself an honest man, vigilant and faithful. They will not only defeat his opponent, but will likewise put the seal of disapproval upon all those who, relying upon the fancied strength that comes of blind partisanship, have joined hands with him and propose to make his fight their struggle. Let it be so. The "Big Four" will find that the line must be drawn somewhere and the voters will draw it this year at the misappropriation of private and public funds.

Misses Cora Petrov, Mary Feland and Mrs. W. A. Wilgus and Mrs. J. T. Rice are at Cerulean this week.

Miss Lattie Robinson, of Bowling Green, who has been visiting Miss Mary Radford, returned home this week.

Misses Maggie Morton, of Stanton, Ala., and Mary Morton, of Tunkago, Ala., are visiting the family of Dr. J. M. Dennis.

Miss Laura Holford returned to her home in Barron Plains, Tenn., Tuesday, after a short visit to Miss Nora Dalton.

Misses Vannie Edwards, of Paducah, Ohio Paul and Minnie Hickory, of Glasgow, Ky., are visiting the family of W. H. West.

Miss Hattie Gold, of Sedalia, Mo., who has been the guest of Mrs. Geo. Dalton for several weeks, left for her home Tuesday night.

Miss Albertine Wallis, who has been sick for several weeks, spent last week in the country with the family of Mr. Dink Elgin, returning home yesterday much improved.

### Result of the Census.

Superior Chambers has written to the KENTUCKIAN that the census returns show Hopkinsville's population to be in round numbers 5,000, but it is possible that a recent count had in No. 3, where less than 800 names were taken. Capt. McDaniel, the city assessor, estimates that this district has not less than 1,200 inhabitants. The families of John Fehnd, Jr., M. D. Steele, R. M. Steele, Mrs. P. G. Lander and others were among those overlooked, which shows the exceedingly careless way in which the work was done. It is probable that two of the four districts were well taken and if a recent count be had in the others, our population will be considerably over 6,000, with 2,000 more in the suburbs.

### Clarksville Marble Works.

The proprietor of the above works, Mr. Samuel Hodgson, inserts an advertisement in this issue, as will be seen by a perusal of the columns. Mr. Hodgson established these works in 1862, and the business has steadily grown from year to year until now it is simply immense. He is an importer and manufacturer of the finest Granite and Marble Monuments, using the best material obtainable and his work can always be relied upon as coming up to representation. He has sold and placed in position a large number of very fine monuments in this section, the work on which is the most artistic and in every case has given entire satisfaction in every respect, as is shown from testimonials of some of the best men in Christian county, which will be published at an early date. The stock of monumental goods carried is the largest and finest in that section of the State. Several experienced workmen are constantly employed in the business. Mr. Hodgson and his son Samuel J., Jr., personally supervising every piece of work.

### This "old reliable" establishment is

represented in this city by Mr. F. M. Whitlow, who has been its representative for several years, and who takes great pride in pleasing their patrons. Parties desiring first class monuments finished in superb style by experienced workmen would do well to see Mr. Whitlow's book of designs, or call on or address Mr. Hodgson at Clarksville.

### The drought is becoming serious and

rain is now the one thing needed by the farmers. There has been no rainfall of consequence for five weeks.

The tide has set in and the "Big Four" ticket will meet a regular Waterloo in August.

Sacramental services were held at the Ninth Street Presbyterian church Sunday after the regular morning services.

Read list of Dr. Churly's appointments elsewhere. He will speak at Oak Grove on the 20th and at No. 5 on the 31st.

On July 20, 30 and 31 the L. & N. will sell excursion tickets to points in Arkansas and Texas at one fare for the round trip—tickets good 30 days.

A passenger train has been put on the C. & P. branch of the L. & N. It leaves Princeton at 6:10 a. m., and Clarksville at 4:30 p. m. Mr. Stephen S. Lander is conductor.

A delightful social was given at Mr. W. H. Boyd's residence, near Newstead, Friday night last, in which a large number of young folks participated. It was a very enjoyable affair.

The Gun Club including several other gentlemen, held a shooting match at the Park, Saturday. A large crowd was present to witness the fun. After the match was ended there was a balloon ascension and parachute jump, which proved a success.

The supplemental registration next Monday is only for those who were sick or out of the county during the regular registration days. All such persons should not fail to be on hand and register in the Clerk's office.

Mr. P. W. Baker is a candidate for justice of the peace in the district composed of the Bainbridge and Bellevue precincts. He is the only aspirant in the Bellevue end of the district and should by all means be elected.

Grant Dickerson, col., was tried last week before Esquire T. C. Tinsley, on a warrant charging him with having committed a breach of peace. He was acquitted. Later the case of Robt. Edmunds was called. He was fined \$1.00 and costs for drunkenness.

Dr. Churly swept through the southern district last week leaving a trail of enthusiasm behind him like that of a comet. The farmers are rallying to him regardless of party and the present indications are that his majority will be too big to calculate.

On September 3 the theatrical season of 1890-91 will be opened here, with Hattie Bernard Chase holding the boards. Geo. Wilson's famous minstrel troupe will follow. Then comes Al G. Field's minstrels, the finest troupe on the road. Lillian Lewis is also booked for an engagement, as well as many other leading companies, and the fun-loving people may expect this to be a season full of attractions at Holland's Opera House.

C. M. Latham's summer clearance sale is now on and great bargains in ladies' dress goods, white goods, summer underwear, notions and novelties can be had. He also offers a complete stock of shoes for men, ladies and children, of the very best make, unsurpassed in style, quality, etc., at prices asked for inferior goods ordinarily. The largest stock of carpets in the city to pick from—all the latest shades, selected with the greatest care. These goods are offered at "rock bottom prices," and will go, so call early and select your bargains.

The following items concerning a former citizen of Hopkinsville are clipped from the Columbia, Mo. Herald:

"Prof. M. L. Lipscomb, of the University, will go East this week to visit his parents in Virginia and also to examine the work being done in various Eastern educational institutions in his own particular department. Electrical engineering is attracting a great deal of attention just now and Prof. Lipscomb intends to keep abreast with the latest discoveries in this interesting and important branch of knowledge.

Prof. A. F. Fleet has sold his residence property in the south part of town, consisting of a handsome two-story dwelling and two acres of ground to Prof. M. L. Lipscomb, for \$3,500.

The candidates spoke at six points in north Christian last week, winding up at Hise's store on Saturday. They were everywhere greeted with good crowds and the people are manifesting a lively interest in the main issue of the campaign. They spoke at the chalybeate spring north of town yesterday and will begin at Bellevue to-day and move to the south, speaking day and night. The Republican candidates are nearly all on the defensive and are very anxious to quit. Fortunately, however, Buck Leavelle's new drink, "Coca-Cola," is good for a "tired feeling," and they can brace up and possibly hold out a couple of weeks longer. What worries them above all things is that the last speeches of the campaign will be made in north Christian, and not at night meetings in the southern districts.

## MORE ROTTENNESS.

The Investigation In Progress for 1885.

Many Tax Lists Found Raised.

After being unable to agree upon the order of the investigation for several days, the committee to look into private raises began work Saturday on the books of 1885 and will finish Boyd's books first. It was known in advance that wholesale frauds had been committed in 1885, but nothing definite was known as to 1885 and 1886. The investigation now in progress reveals the existence of the same methods in the first year of Boyd's term, though in a less bold and flagrant manner. A part of the book for district No. 1 was examined Saturday and the work was continued yesterday. Many tax-payers were found in the list of victims, the raises ranging all the way from 10 cents to \$2 or \$3. No account is being taken of raises under 10 cents, though many even this small have been discovered. The list is being carefully tabulated by Messrs. Davidson and McDaniel and the victimized parties will be notified as soon as 1885 is completed, which will be in about three days. That year is very much smaller than the others. It was in 1887 and 1888, especially in the latter year, that the large raises were made and from \$10 to \$12 extorted from individual taxpayers by one stroke of the pen. A part of 1888 has already been uncovered and published, amounting to nearly \$700. The amounts for 1888 will have to be increased 12 per cent—six per cent for two years—for accumulated interest and so on each year back, the increase for 1885 being 30 per cent. Of course no taxpayer will take anything less than legal interest while Mr. Boyd's bondsmen remain solvent. The latest alone will amount to many hundreds of dollars by the time all the returns are in.

MR. ROYD AND THE PAPERS.

Mr. John Boyd in his public speeches is in the habit of heaping personal abuse upon Mr. Wood, of the New Era, and Mr. McDaniel, of the KENTUCKIAN. Mr. G. M. Bell, who has been doing most of the writing in the New Era on the Boyd matter, also comes in for a share of his left-handed compliments. Mr. Boyd is pursuing the wrong course in this matter and if he would reflect a moment he would come to a sensible conclusion. He should remember that he admits upon the stump that his books were wrong and has admitted his responsibility by settling in part with the receiver for the county. This being true he should remember that the newspapers are fortified by facts in dealing with his case. He should furthermore bear in mind that the public acts of an official are legitimate subjects for criticism especially when the people's rights have been trampled upon. The Bill of Rights of the Kentucky Constitution says: "The free communication of thought and opinion is one of the invaluable rights of man, and every citizen may freely speak, write and print on any subject, being responsible for the abuse of that liberty." When facts are dealt in that liberty cannot be abused and no man who has placed himself in the light of public censure ought to expect the papers to suppress the knowledge of his evil doing.

A QUESTION.

Perhaps Mr. Boyd would not mind telling the people whether or not O. S. Brown would be his deputy again in the event of his election. We have not heard of any expression from him on this subject as yet.

WHERE IS BROWN?

For a week or more O. S. Brown has been absent from the city. It is stated that he is out in the Crofton country cooling his fevered brow. Mr. Brown feels very sensibly the disgrace he has brought upon himself and there is much speculation as to what course he will pursue. If he faces the music, conviction is considered certain. A good many people are expecting him to permanently abscond himself, or try the immunity defense. For this reason his absence is attracting considerable attention. He has not yet resigned his place on the City Council and Public School Board.

NOT SHOT OR KILLED.

The suits brought by the Auditor's agent against ex-sheriffs Boyd and Brown, for back taxes, were called before Judge Winfree Saturday. A formal tender of \$2,615 was made, but the State refused to accept anything less than the full amount. The part in dispute represents the fees claimed by the defendants and all penalties are likewise disputed by them. The whole amount claimed by the State with penalties added, is nearly \$6,000. The case will come up for further hearing to-morrow afternoon. The \$2,615 tendered was deposited in bank by Judge Winfree. It was in coin and filled two or three shot-bags.

A GOOD THING!

To our friends and customers: We are pleased to inform you that we now have a sure cure for chills, which is perfectly sweet. It has no taste at all. It will cure any case of Chills. Let us sell you a bottle of Pomeroy's Sweet Chilli Cure! Price 50 cents. One bottle holds enough to cure two or three cases of Chills. Come and let us show it to you. Your Friend,

## The Anticipated Trip to Old Point.

The excursion heretofore run to the seashore have so well repaid those who made this most pleasant trip, and afforded so much to be seen and enjoyed for so small an outlay of time and money, that long before the day, and date is announced the trip becomes a topic of general comment and it is taken for granted that the Railroad will again offer another golden opportunity to others who desire to look on the lengthy panorama of unsurpassed mountain scenery, about which so much has been written, but which must be seen to be appreciated. The Railroad has concluded to run another special, the date of which has already been announced, and no time should be lost in making arrangements if you desire to accompany the party on the most delightful trip ever offered to the traveling public. You have everything to gain and nothing to lose, so give your name in without delay.
